

HEATPUP & THERMOCAT

COLORING BOOK

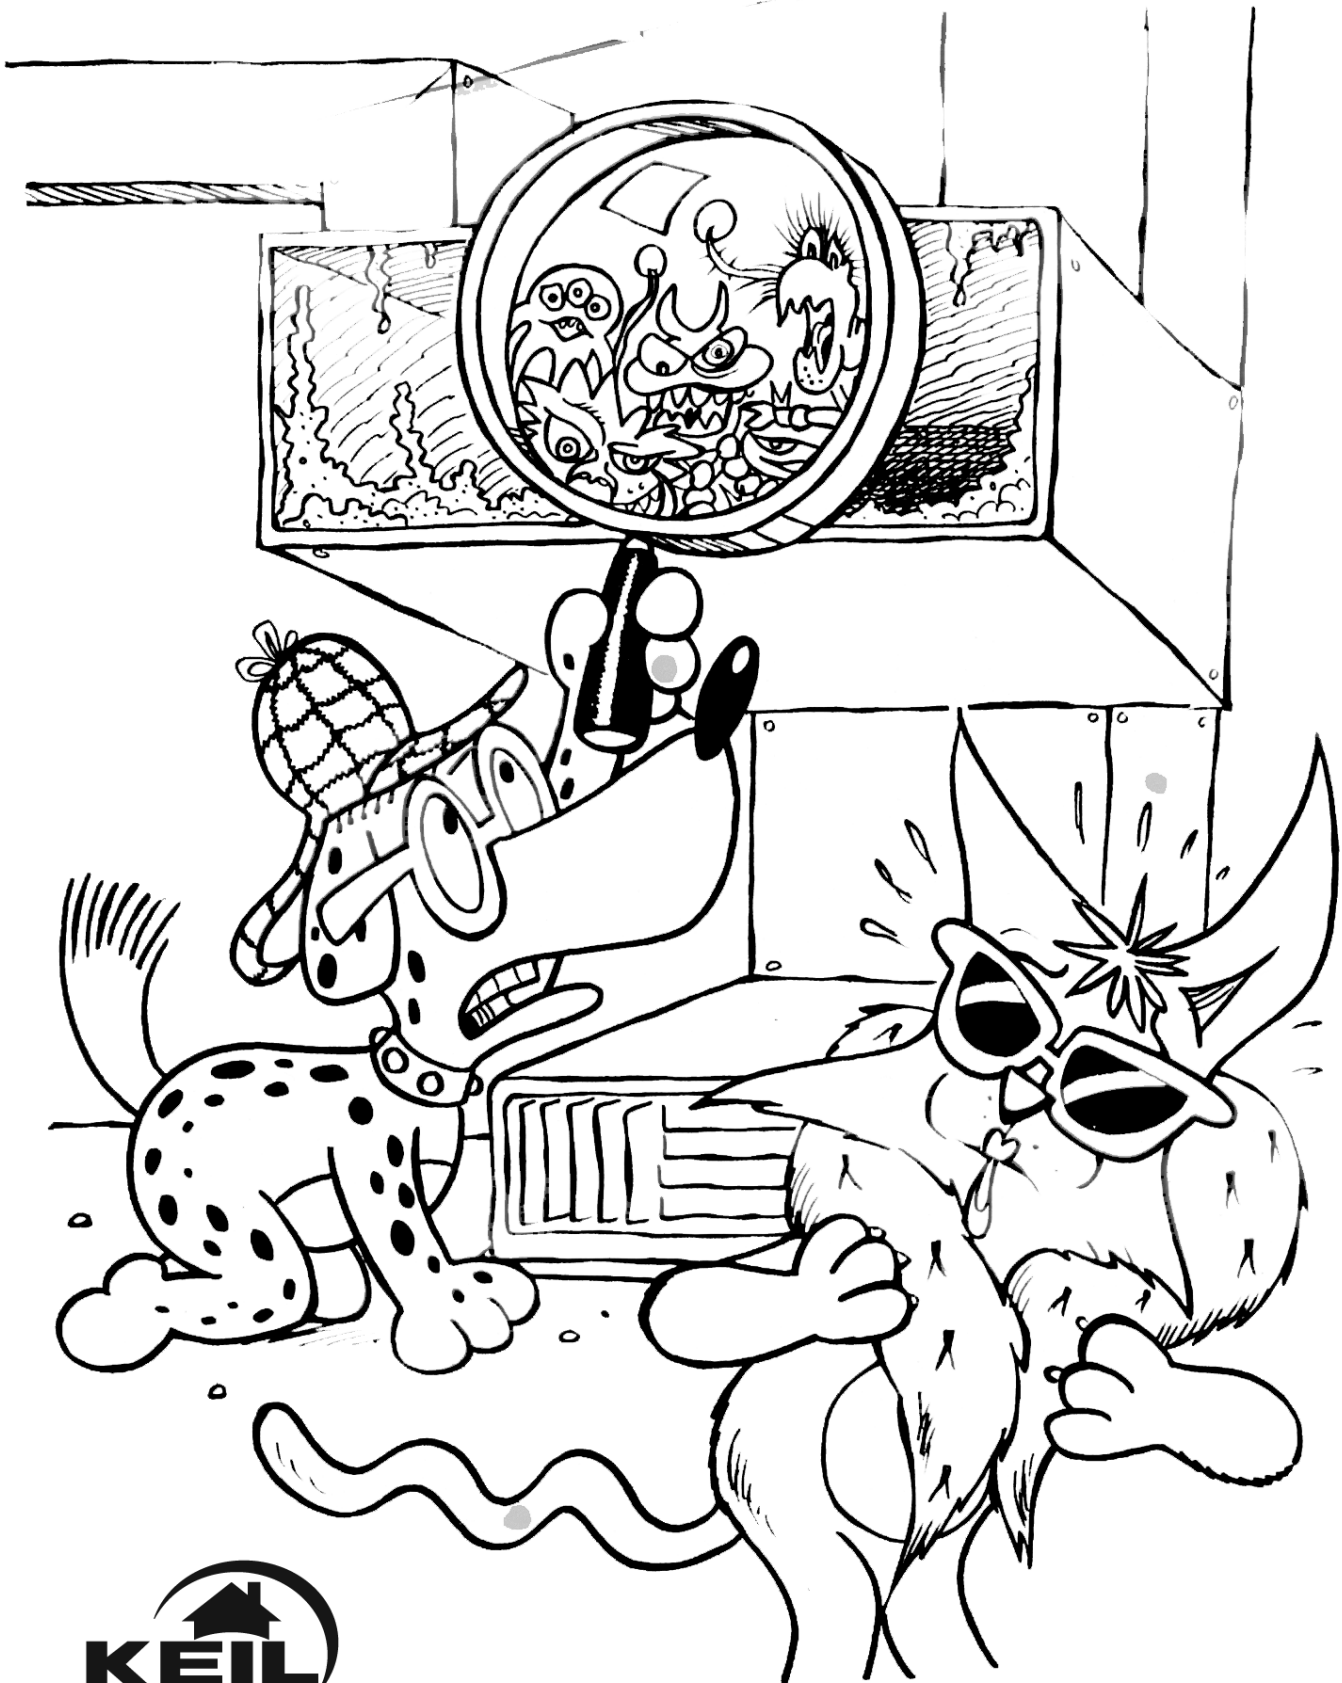

" IT SEEMS LIKE I ALWAYS HAVE
A STUFFY HEAD, EVERYTHING
SMELLS MUSTY! OH HEATPUP,
WHAT CAN WE DO ? "

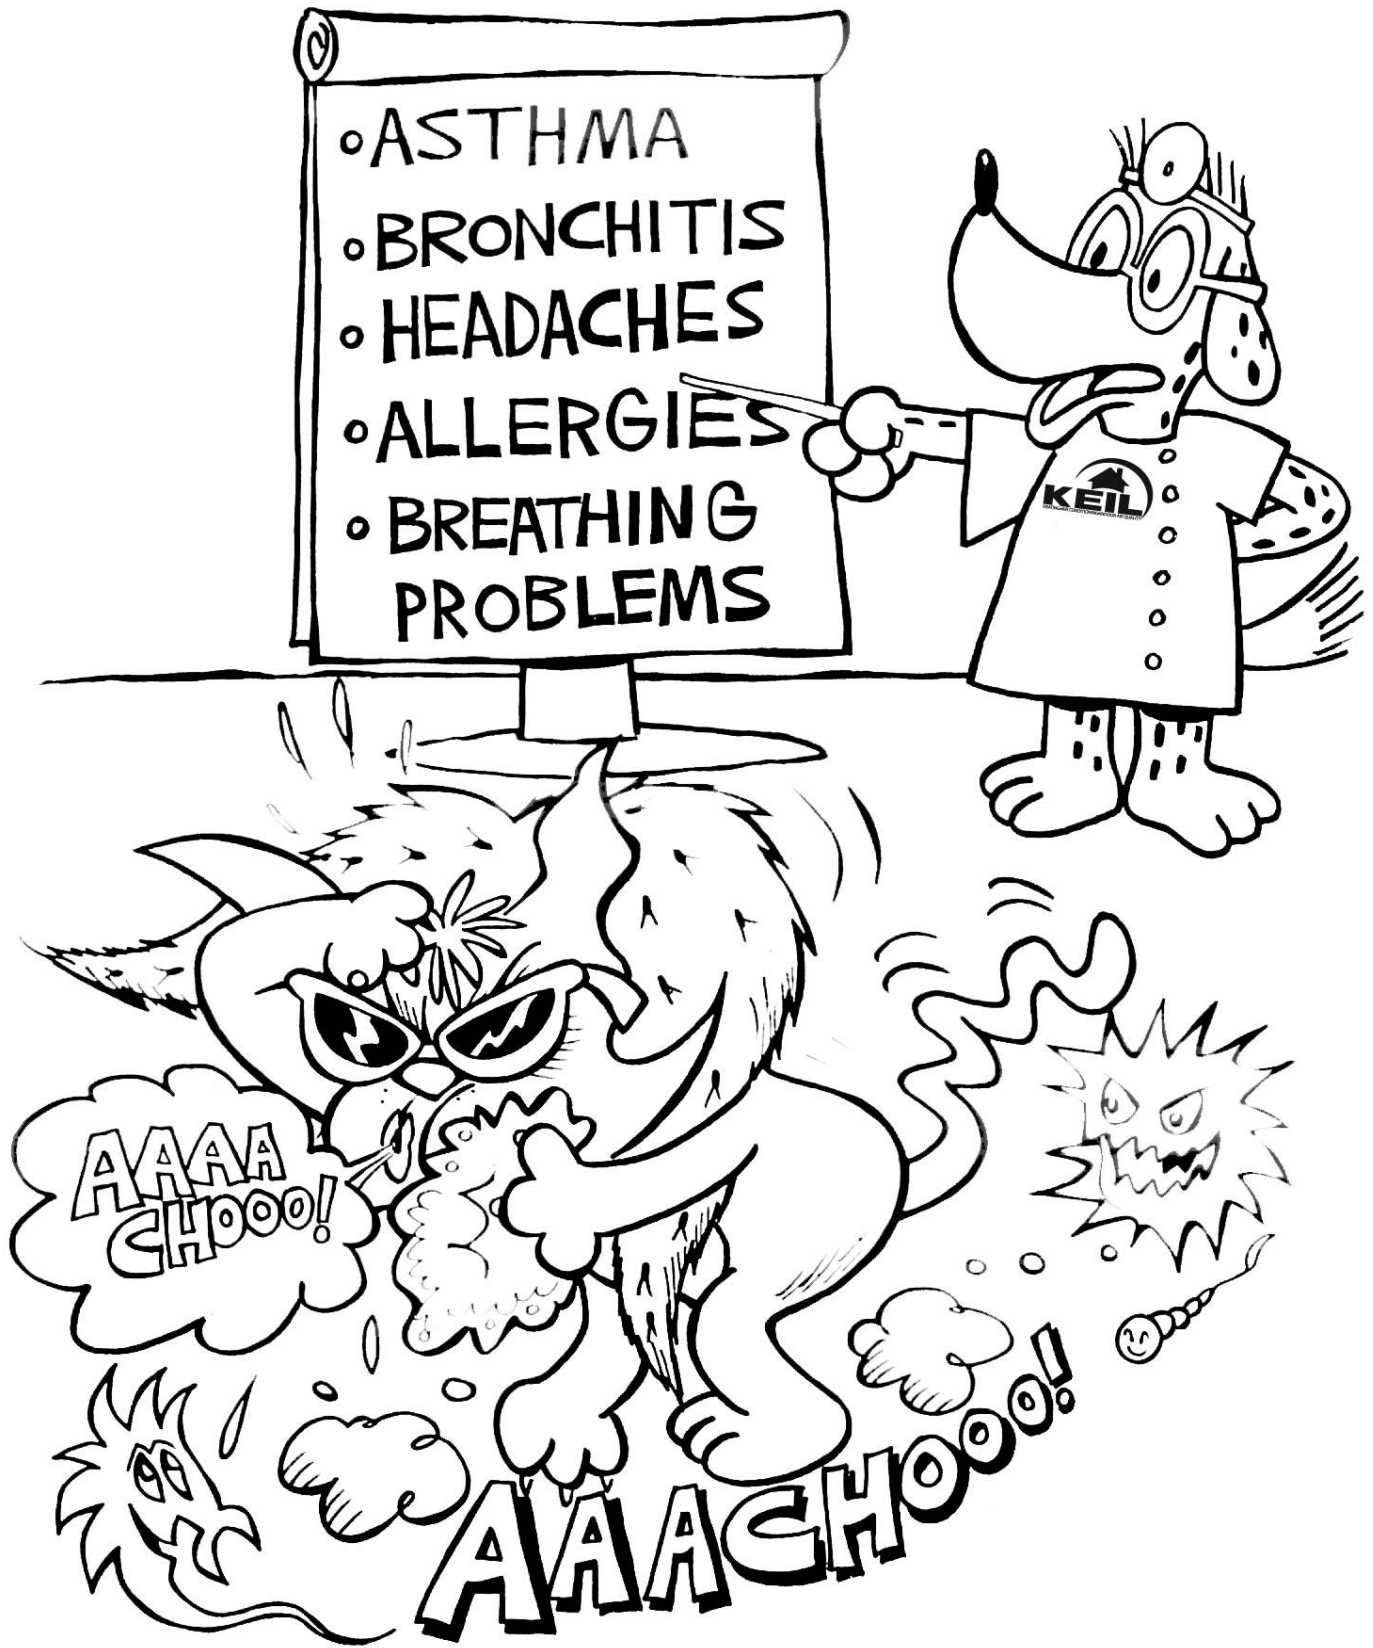

" IT'S TIME TO CALL IN OUR
INDOOR AIR QUALITY EXPERTS!"

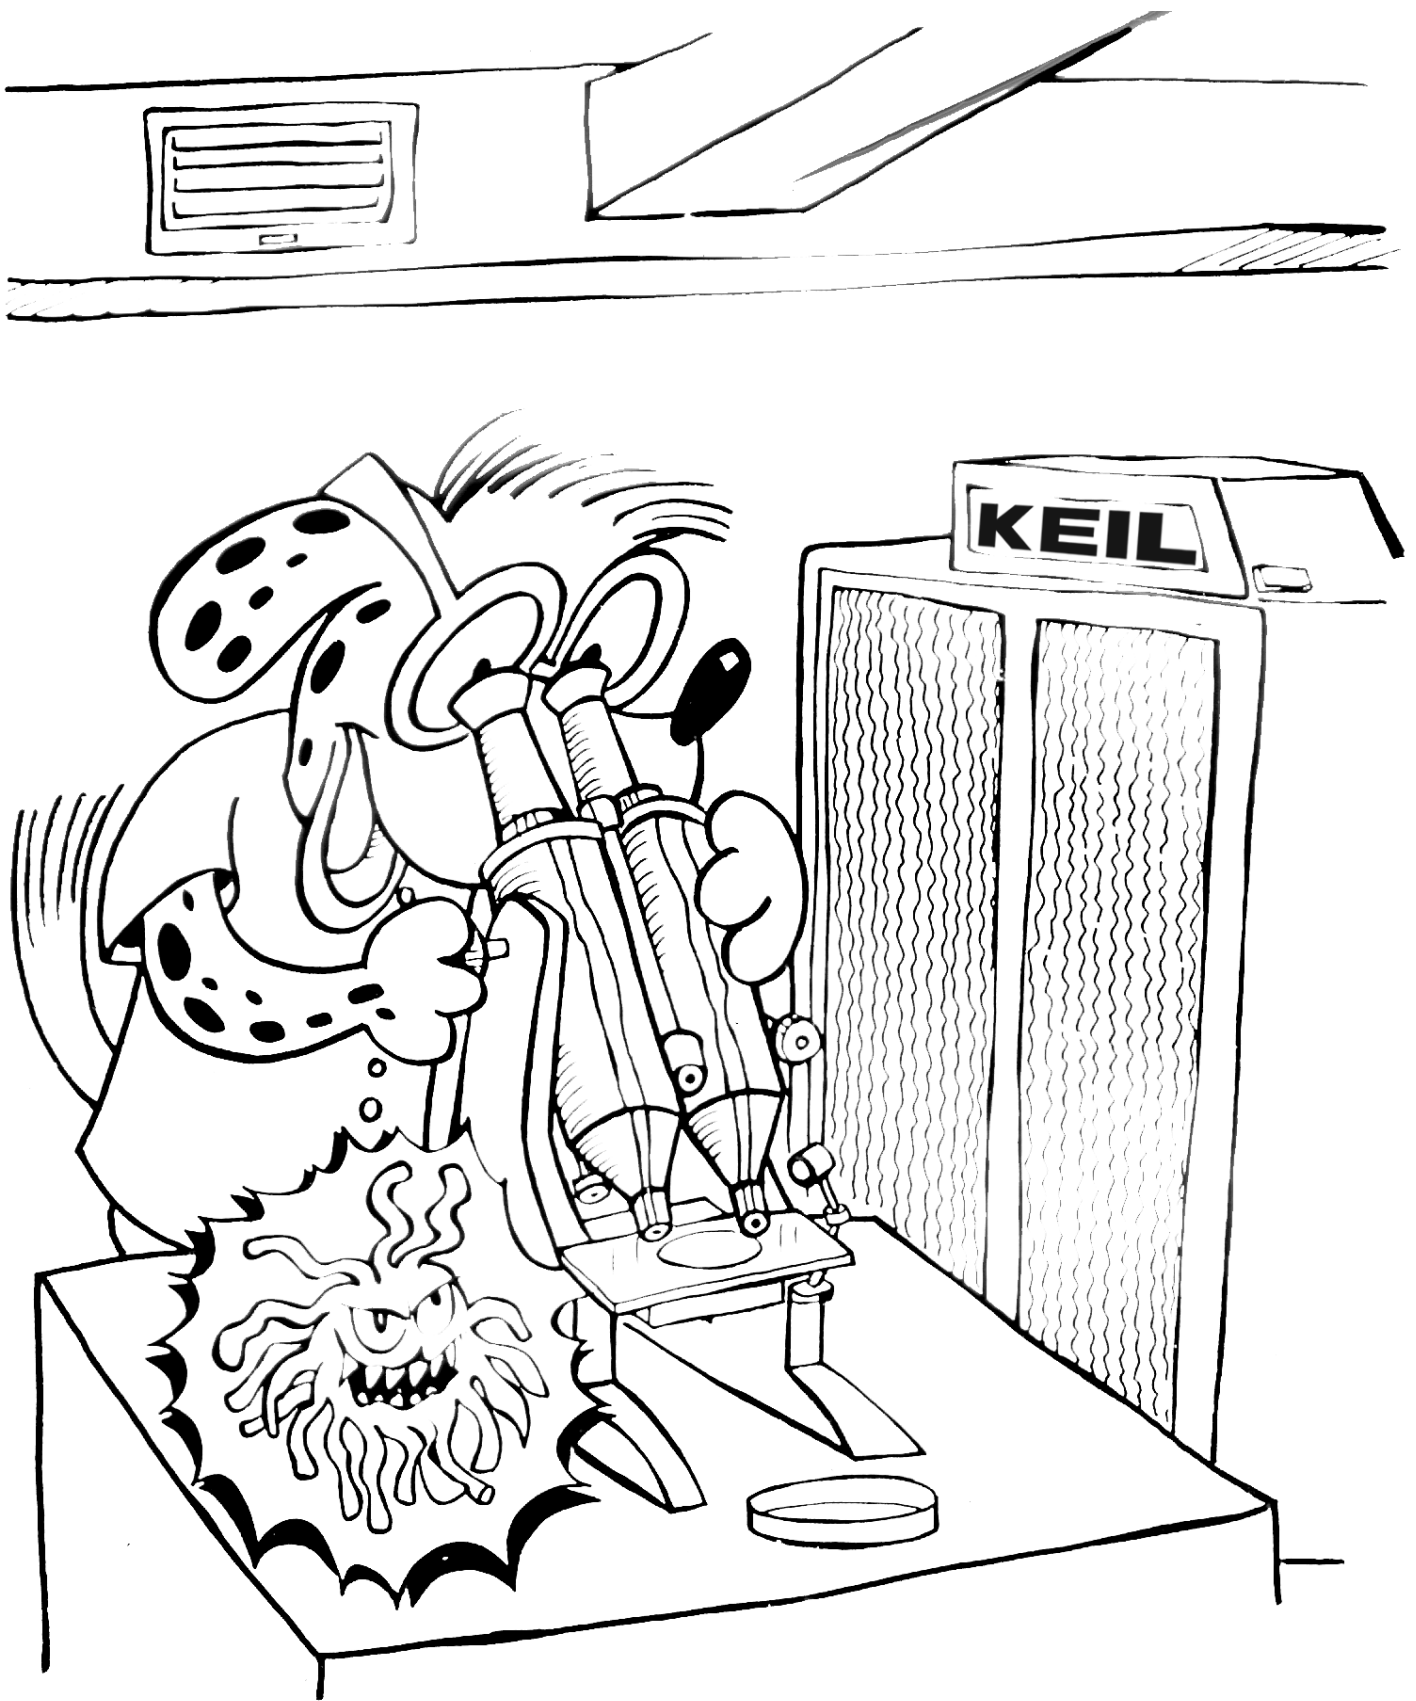

BILLIONS OF MITES, GERMS, POLLENS,
BACTERIA, AND DUST PARTICLES ARE
LIVING IN YOUR HEATING & COOLING DUCTS!

EVERY TIME THE FAN GOES ON, THESE NASTY
LITTLE MICRO-ORGANISMS ARE SENT OUT
INTO THE AIR YOU BREATHE.

IMPURITIES IN THE AIR CAN BE THE KEY ELEMENTS IN THE AGGRAVATION OF THESE AND OTHER DISORDERS.

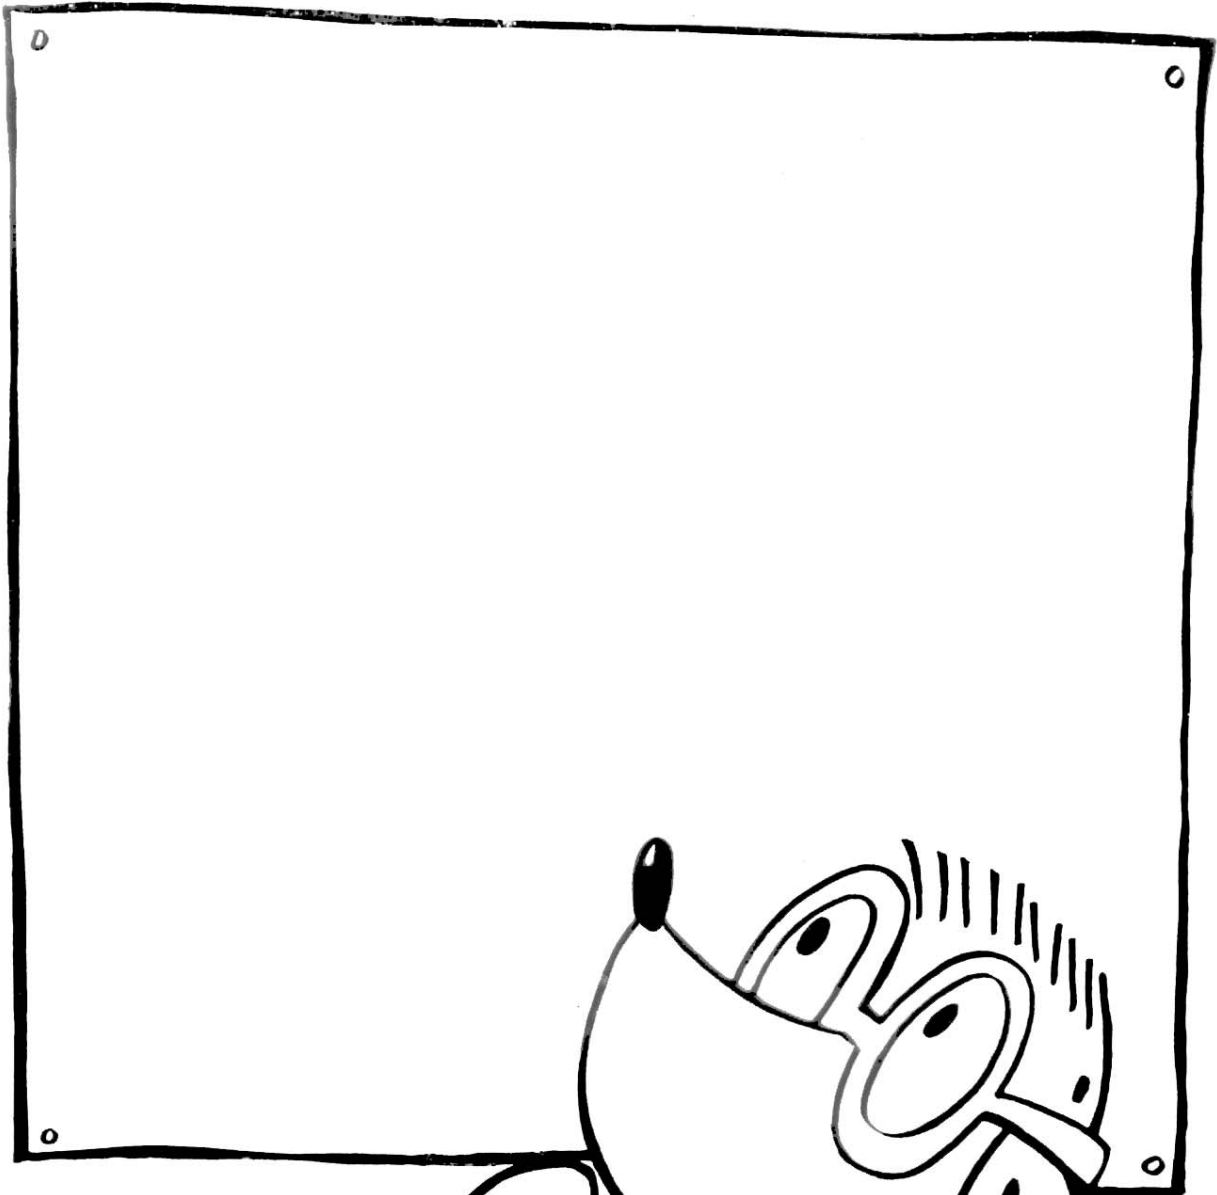

SINCE MOST OF THE CONTAMINANTS ARE MICROSCOPIC, AN AIR FILTER CANNOT BE RELIED ON TO REMOVE THEM.

THERE'S A WAY TO GET RID OF
HARMFUL POLLUTANTS! CLEAN THE
HEATING AND AIR CONDITIONING DUCTS
WITH THE PORTABLE POWER VAC!

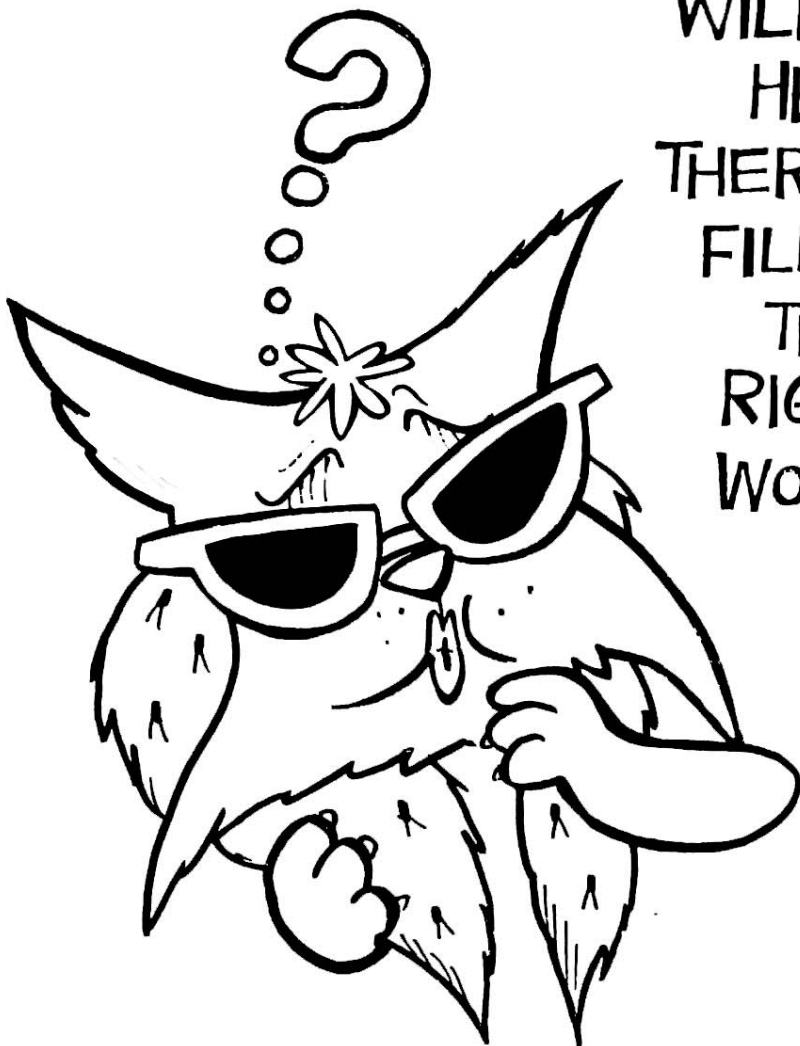

THE ENTIRE INSIDE SURFACES OF ALL SUPPLY AND RETURN AIR DUCTWORK IS CLEANED USING A COMBINATION OF DUCT BRUSHES, AIR PRESSURES AND A HIGH POWER VACUUM.

CAN YOU
HELP HEATPUP
DRAW A PICTURE
OF A NASTY
LITTLE ORGANISM
?

- MAKE INDOOR AIR **H**_____.
- CLEAN AIR IS THE ONLY AIR TO **B**_____.
- MAKE SURE YOU **C**_____ HEATING & COOLING AIR DUCTS.
- A CLEAN AIR PROGRAM WILL PROMOTE A **S**_____ ENVIRONMENT.

WILL YOU
HELP
THERMOCAT
FILL IN
THE
RIGHT
WORDS?

KEIL

CLEAN

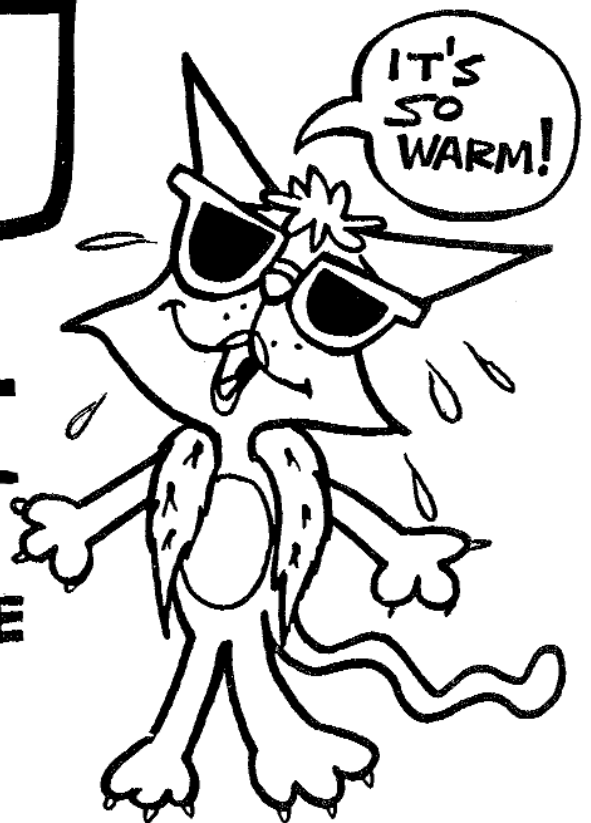

SAFER

BREATHE

HEALTHIER

CAN YOU HELP
THERMOCAT GET TO THE
THERMOSTAT
TO COOL OFF?

KEIL
HEATING • AIR CONDITIONING • INDOOR AIR QUALITY
800-300-KEIL

WE CAN
BREATHE
AGAIN!
